About 2.30 o'clock Sunday afternoon Franklin square ran off the track on the curve in front of the Taftville Congregational church. The heavy rain had washed a pile of sand down the till and onto the track, which caused he front trucks of the car to slip off the rails. The wrecking crew at the car harn was notified by telephone, and on their arrival seen had the car on again. The derailed car was one of the new ones equipped with the dou-ble running board.

The heavy downpour of rain Sunday saused a number of washouts in the village streets. The thunder and ightning was not as severe as that of Thursday's sterm, but the rain was much heavier, coming in showers much heavier, co

His resignation came as a surprise to his parishioners and all expressed deep regret that he had decided to leave inis city, although pleased at his appointment to a larger field of work. During his pastorate here Rev. Mr. True has accomplished much for the good of the church. Extensive repairs on the church building have just been completed, including entire refinishing of the interior and laying of new floors. Mrs. True has been an able helpment to the pastor, taking an active interest in the work of the church, and especially in the work among the young people.

A Record of Active Service. Rev. Mr. True is a graduate of St. Johnsbury academy and of the Bangor Theological seminary of Bangor, Me. He also attended the New Hampton. N. Supervising Agents from all Parts of the State Listen to Secretary Hine's Lectures.

At the close of the second week of the Danbury summer school the regis-tration is 274. Nearly all the super-vising agents of the state are attending the lectures and conferences which are conducted by Secretary C. D. Hine. In his last lecture Mr. Hine continued his explanation about the investigation

In the inspection of schools Mr. Hine said that the supervisors might estimate the value of a school by the amount of profitable time used in the school as compared with the actual time which the school is in session. To ascertain the amount of profitable time he said that one must deduct the time wasted by idleness of pupils after the teacher has assigned tasks either be-cause the work is uninteresting or be-cause it is valueless, or because the pupils have not been trained to sample. pupils have not been trained to employ their time to advantage. Sometimes pupils are imperfectly employed. Again they are improperly employed and there are times when they do not have work enough. All of the above factors must be considered in the factors must be considered in the time lost. There is also a waste be-cause the teachers are not prepared in subject matter or in methods of pre-

entation.

The second session on Saturday was given up to the matter of attendance in the schools. Attendance Agents S. P. Willard, Charles H. Hall, H. J. Potter, R. C. Deming, George Dowd and Mar-cus D. He organized a church in his native town. Holderness, N. H., with about 60 members, and for three years held the pastorate there, during which time a church edifice was constructed and paid for. He next went to the Emanuel Baptist church in Lowell and later to the First Baptist church in Hudson, Mass., from which place he came to Norwich in January, 1911. Rev. Mr. True comes from a family long represented in the ministry.

To Norwood in September, Rev. Mr. True will take up his duties Rev. Mr. True will take up his duties at the First Baptist church in Norwood the first of September. The church is a new and growing one, with a strong and energetic Sunday school. The field is a much larger one than Rev. Mr. True's present charge. His resignation here takes effect following the last Sunday of August. He on one occasion occupied the pulpit at Norwood and as a result a unanimous call wood, and as a result a unanimous call was extended to him.

Both Rev. and Mrs. True have been

well liked in the community and their absence will be deeply felt by their host of friends.
